

A-Core Container

48v to 380v inverter

Commercial and Industrial ESS

Air Cooling / Liquid Cooling

- Budget Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

Overview

A 48V to 380V inverter is a crucial power conversion device used to transform low-voltage DC electricity (typically 48 volts) into high-voltage AC power (380 volts), making it suitable for industrial equipment, commercial systems, and large-scale renewable energy applications.
