

A-Core Container

72v to 24v inverter

Overview

The 72VDC to 24VDC step down buck converter offers selectable output currents (5A/10A/20A) with power ratings up to 480W and high efficiency of 93%–96%. It has $\pm 1\%$ voltage regulation, 2% load regulation, and reliable performance in extreme conditions (-40°C to $+80^{\circ}\text{C}$, 10%–90%RH).
