

A-Core Container

Argentina 60kw off-grid inverter

Overview

Why did Sol-Ark add string inverters & micro-inverters?

Continuing to expand the innovative offering in depth and capability, Sol-Ark added string inverters and micro-inverters enabling a broad diversity of application types. The Sol-Ark mission is to continue making the most reliable, innovative, and robust solar and energy storage solutions to protect families and their businesses.

What is a Sol-Ark hybrid inverter?

The Sol-Ark all-in-one hybrid inverters are best-in-class technology with speed, efficiency, and power as their main advantages, as well as great versatility. Continuing to expand the innovative offering in depth and capability, Sol-Ark added string inverters and micro-inverters enabling a broad diversity of application types.

Do hybrid inverter PV systems need rapid shutdown?

All Hybrid Inverter PV Systems will need rapid shutdown. The IMO BG10P34-11 remote shutdown button is an outdoor initiation switch that can be used to trigger PV system rapid shutdown. IEEE 1547-2018 requires the local communications interface to remain available whenever the DER is operating.

Are Sol-Ark inverters battery agnostic?

Sol-Ark inverters are battery agnostic to be used with a wide variety of 48V battery chemistries, from lead to lithium. Highly Accelerated Life Testing means the SA-60K-3P-480V-N is engineered to last well beyond the standard 10 year warranty.
