# Assembling a portable outdoor power supply

## Overview

---

What makes a good DIY power station?

Every DIY power station has five core parts: 1. Battery The “fuel tank” of your system. Lithium Iron Phosphate (LiFePO4): Lightweight, long-lasting (3,000+ cycles), and safe. Best for most users. Lead-Acid: Cheaper but heavier and shorter-lived. (Source: DwnShifters, Instructables) 2. Inverter.

What supplies do I need for a DIY solar power station?

Fuse Block USB Socket Panel (I Purchased 2) Main On/Off Switch Battery Capacity Monitor SAE Solar Socket 10 AWG Wire Heavy Duty Velcro The next supplies I already had. Here are links to similar products: 16 AWG Primary Wire Ring Connectors Now that you've gathered everything you need for your DIY solar power station, it's time to get building!.

How much does a portable power station cost?

Portable power stations are handy for camping trips, emergencies, or off-grid projects. However, store-bought models can cost \$500 to \$3,000+ and more. Building your own DIY power station saves money, lets you customize capacity and features, and teaches valuable skills.

What battery does my DIY power station use?

My DIY power station has 1,464 watt hours of energy using a 122 amp hour flooded lead-acid battery from Wal-Mart. This battery is no longer available, however you will find alternative 100 amp hour AGM and LiFePO4 batteries linked below.

Why do I need a 12V output voltage source?

In this way the full potential of the voltage regulators can be utilized. A 12V output voltage source is also required for other high voltage applications which is boosted from 8.7V from a second voltage booster section. Because it is a power supply board, it does not carry any differential pair or very high

speed tracks across the PCB.

Can I charge the power supply with a standard USB C/a charger?

So that I can charge the power supply anytime with a standard USB C/A charger. Overall the design is minimalist, looks good and carries 2S 18650 battery for the power backup. This project is sponsored by PCBWAY, China based PCB manufacturer having 10 years of experience in working with PCB related products.
