

A-Core Container

Automatic lithium battery container

Overview

Why do you need a lithium-ion battery storage container?

These storage solutions help prevent thermal runaways, exothermic reactions, and other risks associated with lithium-ion batteries. DENIOS offers a range of lithium-ion battery storage containers that meet stringent safety standards, ensuring reliable and secure storage.

What is the containerized lithium battery energy storage system?

The containerized lithium battery energy storage system is based on a 40-foot standard container, and the lithium iron phosphate battery system, PCS, BMS, EMS, air conditioning system, fire protection system, power distribution system, etc. are gathered in a special box to achieve high integration.

Are lithium ion battery storage containers safe?

Safety and Compliance: Lithium-ion battery storage containers are designed to meet OSHA and ADR regulations. **Versatility:** It is suitable for a wide range of batteries, including e-bikes, power tools, laptops, and electric vehicles. **Size Options:** Available in various sizes to accommodate different storage needs.

What is a battery container?

UNISEG's Battery Container is designed for the safe and convenient storage and transportation of waste / used lead acid batteries (car & automotive).

What are lithium-ion battery storage solutions?

Lithium-ion battery Storage solutions are revolutionizing safety standards across multiple industries. Our storage solutions are indispensable in the automotive sector, where they provide secure storage for electric vehicle batteries and consumer electronics, ensuring the protection of batteries in laptops and mobile devices.

What is a lithium battery shipping box?

The lithium battery shipping boxes are suitable for non-certified batteries, prototypes, battery cells, battery modules and batteries in equipment. For increased part protection, the batteries are stored in layers using customised interior packaging solutions that are developed to safely hold dangerous goods.
