Brazil user-side energy storage power station

Overview

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's first electricity auction drive \$450m investment?

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.

Is Brazil ready for utility-scale energy storage?

“The demand for utility-scale energy storage in Brazil is poised to grow exponentially as the country continues its transition to renewable energy and strengthens its grid infrastructure,” said Marcelo Rodrigues, Sales & Innovation VP of UCB.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

.

Are energy storage products coming to Brazil?

Holu's Costa observed batteries were prominent during the Intersolar South America trade show held in São Paulo at the end of August 2024. She added, hundreds of manufacturers are bringing energy storage products to Brazil.

How will energy storage regulation shape Brazil's energy future?

By advancing energy storage regulation, the agency seeks to enhance system efficiency, accommodate renewable energy growth, and empower stakeholders across the energy sector. ANEEL opens the second phase of Public Consultation on energy storage regulation to shape Brazil's energy future.
