**British energy storage lithium
battery customization company**

Overview

Who makes custom lithium battery packs?

Thanks for submitting! Raeon designs and manufactures custom lithium battery packs of any shape, size or capacity. Built in the UK and trusted across electric, aerospace, defence and industrial sectors.

What does it mean to transport lithium ion batteries?

Transporting lithium metal and lithium ion batteries means adhering to international regulations. These cover stringent testing, package and storage requirements to ensure the safe. Our engineers have been successfully spot welding and arc welding packs for a number of years.

What is a battery energy storage system?

A Battery Energy Storage System (BESS) enables you to capture, store, and control energy generated from sources like solar and wind. It provides greater energy independence, reduces reliance on the grid, and maximises the value of your clean energy investments.
