Built-in embedded outdoor power supply

Overview

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.

What are the fields of application of power supplies?

The fields of application range from industry to IT and household appliances to medical technology. As an authorized design-in distributor of well-known manufacturers, we offer you not only standardized built-in power supplies, but also customized solutions.

Does TSI power offer outdoor xups?

TSI Power's Outdoor XUPS series of rugged outdoor uninterruptible power supplies is the ideal way to supply backup power in extreme environments. TSI Power offers a comprehensive suite of accessories for the Outdoor XUPS. Mounting brackets, battery heaters, maintenance bypass switches, security solutions, and more are available.

Why should you choose a custom power supply?

Products to 250 W, paralleled to 1000 W Shorter lead times, faster integration Time-to-market, reliability and costs have the greatest impact on your ROI. Fully custom solutions can delay your time-to-market and undermine your competitive advantage. Avoid paying custom development costs with an Advanced Energy modified standard power supply.

Is advanced energy a standard product?

While Advanced Energy's Artesyn, Excelsys and UltraVolt product lines offer a broad range of standard products that address the needs of many industries, there are occasions when a standard product does not address all your application requirements. A custom solution may not be economical or meet

scheduling needs.
