Bulgarian solar cell design

Overview

How many solar projects are there in Bulgaria?

Currently, Bulgaria operates over 800 megawatts of wind projects Bulgaria has an annual average of 2,100 hours of solar irradiation. As of 2023 over 1,700 megawatts project are operational in Bulgaria and it is growing substantially. Geothermal energy is gaining attention, with legislative proposals to harness Bulgaria's geothermal potential.

Does Bulgaria have solar power?

In April 2023 Bulgaria's Inercom signed a contract with Huasun for a supply of 1.5GW solar modules. Solar power in Bulgaria was expanded by 100 megawatts (MW) in 2011.

Will solar power grow in Bulgaria in 2023?

However, long-term share of solar power is much lower. Director of Bulgarian transmission network estimated photovoltaics growth as 30% in 2022, and he expected 700 MW new solar capacity in 2023, which could represent 30-40% YoY growth. In April 2023 Bulgaria's Inercom signed a contract with Huasun for a supply of 1.5GW solar modules.
