Chad local solar panel manufacturer

Overview

Where is Chad's first solar power plant located?

InnoVent has therefore decided to develop the country's first solar power plant, by implanting it in Abéché, the second largest city in Chad with 80,000 inhabitants, but which is not connected to the national electricity grid. The project's beginnings date back to the end of 2015.

Is convalt developing a solar project in Chad?

Convalt is developing a 120 MW solar project to service the capital region of Chad – namely N'Djamena. Convalt is developing a series of rural electrification projects across Sierra Leone for an aggregate of 60 MW. Convalt is developing a 30 MW solar project at N'Djamena International Airport in the Republic of Chad.

Why did Innovent develop a solar power plant in Chad?

The other advantage would be the preservation of the environment, important in a semi-desert country like Chad. InnoVent has therefore decided to develop the country's first solar power plant, by implanting it in Abéché, the second largest city in Chad with 80,000 inhabitants, but which is not connected to the national electricity grid.

Why is electricity so expensive in Chad?

Despite these resources, electricity remains very scarce in Chad, making it one of the most expensive in the world. Today, apart from the 1 MW wind power plant (composed of 4 wind turbines) in Amdjarass, a town in the east of the country, electricity is only supplied by generators, which regularly break down.

Will convalt energy revive solar panel manufacturing?

For years, the commitment to solar panel manufacturing has been missing in America. Convalt Energy is on track to revive this industry by becoming

America's second-largest mono-crystalline solar panel manufacturer. Convalt started developing power generation projects in Asia and Africa.

Is Chad a good place to live?

Indeed, Chad enjoys an exceptional sunshine rate of 2,000 to 2,600 hours per year. Some regions also offer very interesting wind speeds. Despite these resources, electricity remains very scarce in Chad, making it one of the most expensive in the world.
