

A-Core Container

Configuration of Kyrgyzstan's super electric rail

Overview

- The project provides for the implementation of a combined route: Kashgar -Torugart -Makmal - Jalal-Abad -Andijan - On June 6, 2024, in Beijing (China), a cooperation agreement was signed between China, Kyrgyzstan and Uzbekistan to jointly promote the KGU railway project - On December 27, 2024, the official start of its implementation was given - Shortens China-Europe route by approximately 900 kilometres - This will create conditions for increasing the speed of cargo delivery, optimizing logistics costs and strengthening the role of the Kyrgyz Republic as an important transit hub in the Eurasian space
