

## A-Core Container

**Customized solar cell 314Ah  
capacity manufacturer for  
communication base stations**

## Overview

---

What is the energy density of a 314-ah energy storage cell?

The energy density of the cell reaches 180 Wh/kg, and the volumetric energy density reaches 395 Wh/L. The 314-Ah large energy storage cell can be used in a 20 foot 5 Mwh energy storage system, covering most scenarios such as power storage, industrial and commercial energy storage, household energy storage, network energy, and smart energy.

What is a sunwoda 314ah batterycell?

Sunwoda's 314Ah batterycell is suitable for a wide range of energy storage applications and has already been successfully deployed in both utility-scale and C&I BESS. Individual pricing for large scale projects and wholesale demands is available.

What is a 314 Ah battery cell?

Sunwoda's 314Ah battery cell is suitable for a wide range of #energystorage applications and has already been successfully deployed in both utility-scale and C&I BESS. The size of the 314 Ah cell of #SEVB is consistent with that of the 280 Ah cell commonly used in the market (71173), with a 12% increase in capacity for the same volume.

What is hithium 314ah ESS?

Please check the details of our Privacy Policy . HiTHIUM 314Ah ESS battery is tailored to meet the evolving needs of the power storage market by optimizing performance across multiple dimensions, including cell cost, system cost, and standard configurations for complete units.
