# Dominican Republic Energy Storage Project Partner

## Overview

---

What is the first solar-plus-storage project in the Dominican Republic?

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

Does totalenergies have a renewable business in the Dominican Republic?

The transaction will enable TotalEnergies to enhance its renewable business within the Dominican Republic, where it already operates 184 service stations, manages natural gas distribution and is developing a 103MW solar plant.

What is the Dominicana Azul solar project?

The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December). Construction has started on the first major solar-plus-storage project in the Dominican Republic, featuring a 99MWh battery system.
