Dominican container battery energy storage project

Overview

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). What is the first solar-plus-storage project in the Dominican Republic?

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

Is Zenith launching a solar farm in the Dominican Republic?

Source: Comisión Nacional de Energía () Zenith Energy Corp SRL, a subsidiary of Blacktree Capital Management, has initiated construction of the 101.2-MWp Dominicana Azul solar farm in the Dominican Republic, launching a project that will boast the Caribbean nation's first battery energy storage system (BESS).

How much power will the Dominicana Azul solar farm produce?

The Dominican national energy commission CNE said that the solar farm will have a BESS of 24.8 MW of power and 99.2 MWh of storage capacity. The Dominicana Azul plant will be capable of producing around 176.4 GWh of electricity annually for the national grid. Zenith Energy will build the facilities in the Cabrera municipality.

What is the Dominicana Azul solar project?
