# Energy Storage Project Operating Company

## Overview

---

What makes esvolta a reliable energy storage company?

Powered By Reliability. Focused on sustainability and innovation, esVolta develops, owns, and operates reliable utility-scale energy storage assets across the entire lifecycle - delivering value for utilities, energy users, and investors. From concept to commissioning, each project reflects our commitment to reliable, scalable energy storage.

How does the Fox Hills Energy Storage System work?

You may also receive emails and/or texts, based on your notification preferences. The Fox Hills energy storage system, which is located next to our substation in the Rosebank neighborhood of Staten Island, furthers our clean-energy goals by storing 7.5 MW / 30 MWh of energy, including from renewable sources, such as solar and wind.

Will longroad energy grow its operating portfolio?

Meanwhile, Longroad Energy is expecting to significantly grow its operating portfolio before the end of next year - in March this year, the company confirmed it had achieved financial close on Serrano, its 220 MWdc solar and 214 MWac / 855 MWh storage project in Pinal and Pima Counties in Arizona.

Did plus power close a \$133 million construction project?

In June this year, it was revealed that Plus Power had closed a \$133 million construction and term financing for the “first major utility-scale standalone battery storage system in construction” on the New England grid, the 150 MW / 300 MWh Cranberry Point facility, located in Carver, Massachusetts.
