

## A-Core Container

# Energy storage cabinet power battery

## Overview

---

### What is Delta Battery energy storage system (BESS)?

Delta's battery energy storage system (BESS) utilizes LFP battery cells and features high energy density, advanced battery management, multi-level safety protection, and a modular design. Available in both cabinet and container options, it provides a complete and reliable energy solution.

### What is a battery energy storage system?

A battery energy storage system, or BESS, is a system that uses batteries to store energy for later use. With the advent of this technology, energy usage could see a complete transformation; allowing access to energy sources when needed while reducing our dependence on traditional energy sources from fossil fuels.

### What is a battery cabinet?

A battery cabinet is a particular type of storage cabinet that reduces the risks associated with lithium-ion batteries. These innovative cabinets create a safer environment in which workplaces can charge and store their li-ion cells.

### Which energy storage solutions does Delta offer?

Delta's energy storage solutions include the All-in-One series, which integrates batteries, transformers, control systems, and switchgear into cabinet or container solutions for grid and C&I applications. The streamlined design reduces on-site construction time and complexity, while offering flexibility for future expansion.
