# Estonia energy storage power station grid connection time

## Overview

---

The first facility in Kiisa is scheduled for completion by the end of 2025, with the Aruküla battery park following in 2026. The timing of these installations aligns with the Baltic states' planned synchronisation with the European electricity grid by 2025.

The first facility in Kiisa is scheduled for completion by the end of 2025, with the Aruküla battery park following in 2026. The timing of these installations aligns with the Baltic states' planned synchronisation with the European electricity grid by 2025.

Estonia's electricity sector is interconnected with regional energy markets, particularly through connections with Finland and Latvia. The direct electrical interconnection with Finland was established in 2006 and was further strengthened by the Estlink 2 interconnector in 2014. Estonia joined the.

As announced recently, the project has successfully implemented Estonia's first 330 kV underground cable installation, connecting the battery park to the Estonian grid connection point. "This is an extremely important and real step to prepare the synchronisation of the Baltic countries," explained.

Eesti Energi has completed the procurement for its 26.5MW/51MWh BESS, the first of that scale in Estonia, with LG Energy Solution among the successful parties. The battery energy storage system (BESS) will be built at the Auvere industrial power plant complex in Ida-Viru county and will help.

They are intended to help stabilize the Baltic power grid, which is to be decoupled from the Russian power grid at the beginning of 2025. In view of the enormous expansion of renewable energies in all countries of the European Union with the aim of becoming CO2-neutral by 2050 and strengthening the.

Estonia has laid the cornerstone for what will become the largest battery park in continental Europe, a major step toward synchronising the Baltic power grids with Europe by 2025; the project, led by Evecon, Corsica Sole and Mirova, aims to bolster energy security and support Estonia's transition.
