## Overview

---

Does Eesti Energi have a Bess battery?

Estonia utility Eesti Energi has completed the procurement for its 26.5MW/51MWh BESS with LG Energy Solution to provide the batteries.

Who is Eesti Energia?

Eesti Energia is a state-owned utility operating in Estonia but also in abroad. Image: Eesti Energia. Eesti Energi has completed the procurement for its 26.5MW/51MWh BESS, the first of that scale in Estonia, with LG Energy Solution among the successful parties.

Is Eesti Energia launching pumped hydro energy storage projects?

Eesti Energia and a consortium of private companies are also launching separate, large-scale pumped hydro energy storage (PHES) projects, though these would come online in the late 2020s. Energy-Storage.news' publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024.

When will Estonia & Lithuania disconnect from Russia's grid?

It will come online at the start of 2025, when Estonia and the other Baltic countries Lithuania and Latvia will disconnect from Russia's grid. The complex is located close to the border with Russia in the northeast of Estonia.

What is Eesti Energia's Energy Plan?

'We are honoured to contribute to Eesti Energia's energy plan for desynchronisation (disconnecting from Russia's grid) in the Baltic countries,' said Kyuwon Heo, Head of Grid ESS Europe at LG Energy Solution. Estonia is targeting an exit from electricity production from shale gas and a 40% renewable energy mix by 2030.

Where will a battery energy storage system be built?

The battery energy storage system (BESS) will be built at the Auvere industrial power plant complex in Ida-Viru county and will help balance the country's grid, state-owned utility Eesti Energia said today (30 January).
