French large-capacity energy storage battery company

Overview

Lisbon-headquartered renewable energy company TagEnergy has launched the construction of France's biggest battery energy storage system (BESS). Where is France's largest battery energy storage system located?

TagEnergy, in partnership with Tesla, has officially begun construction on France's largest battery energy storage system (BESS) in Cernay-lès-Reims, located in the department of Marne .

Which country has the largest battery energy storage capacity in France?

Cheviré will have the largest battery energy storage capacity in France, utilising Tesla Megapack technology, with a total power of 100 MW / 200 MWh. It will be able to charge and discharge the equivalent of 2 hours of electricity, enough to power 170,000 homes - more than the population of the city of Nantes.

How much battery storage capacity is available in France?

To date, approximately 1 GWh of battery storage capacity is operational in France. The completion of the Cheviré BESS will represent a 20% increase in installed energy capacity. To support the deployment of renewable energy production in France, the French grid operator RTE anticipates total storage capacity in the range of 12 to 15 GW by 2050.

Will Tesla build France's biggest battery energy storage system?

Lisbon-headquartered renewable energy company TagEnergy has launched construction of France's biggest battery energy storage system (BESS). Tesla will contribute to the project also, offering market access services and its expertise in advanced storage solutions.

Why do we need a battery energy storage system in France?

"Battery energy storage installations will be necessary throughout France to provide essential services and support the rapid evolution of the energy

landscape. They will facilitate electrification, the integration of renewable energy, the security of our supply, and help control costs for both the network and the customer.

Will ABN AMRO be the largest battery energy storage system in France?

Dan Dorner, Chief Commercial Officer Corporate Banking said: “We are happy to have supported this landmark project, which will become the largest battery energy storage system in France upon its completion. This marks ABN AMRO’s first BESS transaction in France, and builds upon our broader BESS and renewable energy track record.
