French outdoor power lithium battery factory

Overview

Are Neogy batteries made in France?

entirely manufactured in France to meet your needs. electric mobility, robotics, Defense, marine. Neogy® is the first French battery manufacturer to obtain ECE R100 approval for batteries used in M1 and N1 category EVs (including fire and crush tests).

Are lithium ion batteries good for e-mobility?

Lithium-ion (Li-ion) batteries play a fundamental role in e-mobility. Thanks to their performance in terms of autonomy, power and durability, they are enabling the development of cleaner, more efficient means of transport. But what are the real advantages of these batteries?

.

Why are lithium batteries important for e-bikes?

The e-bike market is booming, driven by growing demand for sustainable mobility solutions. At the heart of this revolution, lithium batteries for e-bikes play an essential role. However, manufacturers face a number of major challenges in guaranteeing performance, safety and durability.

What are the different types of lithium batteries?

In terms of lithium battery technologies, two types dominate the industry: NMC (Nickel-Manganese-Cobalt) and LFP (Lithium-Fer-Phosphate) lithium-ion batteries. These two chemistries offer distinct performances and are suitable for different uses. This guide explores their differences to help you understand which option to consider for your needs.
