# Georgia Distributed solar Energy Storage Project

 **TAX FREE**    

## ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

The diagram shows a vertical Energy Storage System (ESS) unit. It has a grey front panel with a central door handle and a lock mechanism. Two vertical green lines run down the center of the panel. The letters 'ESS' are printed in green in the upper right corner. At the bottom of the panel, there are two yellow warning triangles with black lightning bolts inside, indicating high voltage or electrical hazards.

## Overview

---

The projects, approved by the Georgia Public Service Commission (PSC) as part of the Integrated Resource Plan (IRP), are designed to provide rapid capacity dispatch for customers while also improving efficiency in utilizing renewable resources such as solar power.
