Global solar Inverter Market by 2025

Overview

The global solar inverter market is poised for steady growth, with its market size projected to reach USD 12,923.3 million in 2025 and expand to USD 21,645.9 million by 2035, reflecting a CAGR of 5.3% over the forecast period.

The global solar inverter market is poised for steady growth, with its market size projected to reach USD 12,923.3 million in 2025 and expand to USD 21,645.9 million by 2035, reflecting a CAGR of 5.3% over the forecast period.

The Solar Inverter Market is segmented by central, micro, and string inverters from 2025 to 2035. The global solar inverter market is poised for steady growth, with its market size projected to reach USD 12,923.3 million in 2025 and expand to USD 21,645.9 million by 2035, reflecting a CAGR of 5.3%.

The Solar Inverter Market Overview 2025 report reveals that the market size has grown significantly over the past few years, with projections indicating further expansion. What are the Historical Growth Trends in the Solar Inverter Market?

The Solar Inverter Global Market has seen substantial.

UK-based analysts GlobalData predict growth in the world's solar module and inverter markets through to the end of the decade will be driven by the Asia Pacific region. The global solar module and inverter markets are on course to reach a combined \$115.8 billion by 2030, according to forecasts made.

This report provides insight into the global and regional PV inverter markets, presenting a detailed breakdown of 2024 full-year shipment data, outlining demand trends and shipments by product-type. An outlook for 2025 and 2026 inverter market trends are provided for key global markets, including.

The global PV inverter market was valued at USD 34.6 billion in 2024 and is estimated to grow at a CAGR of 9.5% from 2025 to 2034. The paradigm shift toward the integration of renewable energy resources will fuel the adoption of efficient systems. Photovoltaic inverters in the last decade have.
