Greek Communication Base Station Flow Battery Construction Project

Overview

Does Greece have a battery storage subsidy program?

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of a battery storage subsidy program launched in 2023, with the country now turning its focus towards a new 4.7 GW unsubsidized BESS scheme.

How many companies have won government support for a battery project?

Seven companies have won government support for 11 standalone battery projects at Greece's second energy storage auction, where 300 MW was offered.

Which energy company offers the lowest bids for a battery project?

Greek firm Hellenic Renewables, which is a subsidiary of Helleniq Energy, offered the lowest successful bids for two battery projects of 25 MW/100 MWh each.
