ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The diagram shows a vertical Energy Storage System (ESS) unit. It has a grey front panel with a central door handle and a lock mechanism. Two vertical green lines run down the center of the panel. The letters 'ESS' are printed in green in the upper right corner. At the bottom of the panel, there are two yellow triangular warning symbols with a lightning bolt inside, indicating high voltage or electrical hazard. The unit is mounted on a black base.

Overview

Companies like B2U are repurposing old Nissan Leaf batteries for Haitian microgrids at half the cost. And let's not forget AI-driven energy management—imagine batteries that “learn” outage patterns and pre-charge before storms! While lithium dominates now, keep an eye on zinc-air batteries.
