# Honduras s new energy storage policy

## Overview

---

The National Electric Power Company (ENEE) announced a bid for installing a Battery Energy Storage System (BESS) to enhance energy supply stability, particularly for challenges anticipated in summer 2024 and the projected demand increase for 2025.

The National Electric Power Company (ENEE) announced a bid for installing a Battery Energy Storage System (BESS) to enhance energy supply stability, particularly for challenges anticipated in summer 2024 and the projected demand increase for 2025.

Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. The public event marked the opening of bids for the energy storage procurement, called LPI-001-ENEE-UEPER-2024, for the 'Supply, installation, testing and commissioning.

The National Electric Power Company (ENEE) has selected a Chinese-Honduran consortium to design, supply, install, test, and commission a grid-connected battery energy storage system (BESS) at the Amaratoca substation in the department of Francisco Morazán. Honduran state-owned utility ENEE has.

Recently, Windey, in collaboration with EQUINSA, a local Honduran power company, successfully won the EPC turnkey contract for Honduras' first energy storage project—the Honduras Energy Storage Project—marking a critical breakthrough of "first bid, first win" in its international energy storage.

The National Electric Power Company (ENEE) announced a bid for installing a Battery Energy Storage System (BESS) to enhance energy supply stability, particularly for challenges anticipated in summer 2024 and the projected demand increase for 2025. This 75 MW/300 MWh system will be installed at the.

Honduras has awarded a US\$50.2 million contract for a 75 MW battery energy storage system to the Chinese-Honduran consortium Windey-Equinsa. This

project, selected through an international tender with six proposals, will be the largest energy storage system in Central America once operational by.

In November 2024, Honduras made waves with its 75MW/300MWh battery storage tender - the energy equivalent of building a 4-hour power bank for 75,000 Honduran households [1]. Fast forward to March 2025, and China's Windey (赢德) teamed up with Spain's Equinsa to clinch the \$50.2 million contract.
