Huawei Philippines Energy Storage Container

Overview

China's Huawei has bagged its biggest BESS order to date and will supply the Meralco Terra Solar Project in the Philippines, which is considered the largest integrated solar and battery storage facility in the world. How many GWh of battery energy storage in the Philippines?

With the latest deal, the Philippines has procured cumulative 6 GWh of battery energy storage systems (BESS) within days. China's Huawei has bagged its biggest BESS order to date and will supply the Meralco Terra Solar Project in the Philippines, which is considered the largest integrated solar and battery storage facility in the world.

Will Huawei provide a 4.5gwh Bess for Meralco Terra solar project?

Huawei has secured a supply agreement to provide a 4.5GWh BESS for the Meralco Terra Solar project in the Philippines.

What is Huawei's largest energy supply agreement?

The BESS supply agreement marks Huawei's largest to date. Construction started on the Meralco Terra Solar solar-plus-storage project in November 2024. The site is claimed to be the world's largest integrated power plant that combines the two technologies.

Does Huawei have a Bess solution for Terra solar?

Regarding large-scale BESS deployment, Huawei recently provided its Smart String ESS LUNA2000-2.0MWH-4HL batteries combined with its Luna 2000-200KTL-HO inverters for a 204MW system in Romania. While the company did not explicitly mention the BESS solution for the Terra Solar project, it did provide details on the features it will include.

What auxiliary components will Huawei provide under a Bess deal?

Under the deal announced last week, Huawei will provide its containerized BESS and essential auxiliary components such as fire suppression systems;

heating, ventilation, and air conditioning; battery management systems; power conversion systems; and energy management systems.

Why should you choose Huawei intelligent lithium batteries?

Simple: IoT networking, from manual to Cloud O&M Intelligent: backup power to energy storage system Efficient: precise configuration and investment Safe: fault prediction, passive to proactive Huawei intelligent lithium batteries support AI dynamic peak staggering, evolving from backup power to energy storage systems.
