Huawei Türkiye Power Plant Energy Storage Project

Overview

Turkish energy firm Margun Enerji, in cooperation Partner EGS and Huawei, is preparing to add a 2 megawatt-hour capacity battery energy storage system to its solar power plant (SPP) in western Türkiye, which boasts a peak installed capacity of 20.17 megawatts. Are Turkish energy storage systems a good investment?

Speaking with Energy-Storage.news yesterday, Can Tokcan, managing partner at Turkish energy storage system integrator and manufacturer iNOVAT, said the developments were “very positive for the industry,” although it remains to be seen “how much of that [near 30GW] will be realised and in what time span”.

Will EMRA deploy a battery energy storage system at Soma res?

The same day EMRA published Yimaz’s announcement, renewable energy companies Partner EGS and Polat Enerji said they planned to deploy a battery energy storage system (BESS) at Soma RES, one of Turkey’s largest wind power plants.

Will Turkey raise import duties for lithium iron phosphate products?

Turkey processing applications for energy storage at renewable energy plants, will raise import duties for lithium iron phosphate products.

Will Polat Enerji work on a Bess project at Soma res?

Renewables companies Partner EGS, Polat Enerji agree to work on a BESS project at Soma RES wind farm, with Huawei as BESS supplier. Image: Polat Enerji
