Huawei exports energy storage batteries to West Asia

✓ TELECOM CABINET

✓ BRAND NEW ORIGINAL

✓ HIGH-EFFICIENCY

Overview

Huawei's energy storage batteries are being exported through a multi-faceted strategy that includes 1. leveraging partnerships with global entities, 2. adhering to international standards and regulations, 3. sustaining innovation in technology, and 4. penetrating emerging markets. How will Huawei & Keppel collaborate on energy storage solutions?

Under an MOU, the two will combine Huawei's digital expertise with Keppel's energy infrastructure expertise to develop innovative energy storage solutions.

How will Huawei & Keppel work together?

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of renewables with state-of-the-art energy storage.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development – we are reshaping the future of energy innovation.

How will Huawei & Keppel collaborate on a demand response programme?

In Singapore, both parties are collaborating on a demand response programme using a BESS developed at Keppel Infrastructure @ Changi. The BESS will allow Huawei and Keppel to further explore novel smart operations and maintenance solutions to enhance the reliability, performance and efficiency of renewable energy assets.

What percentage of energy storage systems are based on Chinese batteries?

Fuelled by rapidly increasing demand within China itself, Chinese batteries account for nearly 90 per cent of global capacity for energy storage systems

(ESS), including a market share of more than 80 per cent in the US and more than 75 per cent in Europe.

Who are Huawei & Keppel?

Huawei International Pte. Ltd. is a leading global provider of ICT infrastructure and smart devices while Keppel is a Singapore-headquartered global asset manager and operator with strong expertise in sustainability-related solutions spanning the areas of infrastructure, real estate and connectivity.
