Overview

Who makes EV batteries in Hungary?

The only exception is BYD, which operates (among others) a bus assembly plant in Hungary and uses its own batteries. In below, we provide a slight overview about the EV battery producer companies which already operate manufacturing plants in Hungary or announced to do so in the near future.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

What are the top 10 battery manufacturers in Hungary in 2025?

This article introduces the top 10 battery manufacturers in Hungary in 2025 such as; CATL, Sunwoda, BYD, EVE Energy, CALB, SK On, Samsung, SDI, GS Yuasa, Inzi Controls, Huayou Cobalt. Last Updated on June 12, 2025.

Why are EV traction batteries made in Hungary?

Over the last years, many of the leader EV traction battery manufacturers and their suppliers chose Hungary as the location of their newly established manufacturing plants. This is in line with the goal of the Hungarian government to become one of the main battery producer countries not only in Europe, but also at global level.

Should Hungary invest in EV battery plants?

Within the European Union, Hungary puts a particularly high stake on EV battery plants, in the hope that it will find itself among the leading countries of an emerging industry within a few years. Commitment to green mobility is not the only motivation for attracting large battery manufacturers to the small Central European country.

Which companies make lithium-ion batteries in Hungary?

Today, Samsung SDI and SKI Innovation operate several giant factories in Hungary, whose total production will potentially grow to 47.3 GWh by 2025 and up to 87.3 GWh by 2030. GS Yuasa also produces automotive lithium-ion starter batteries, while Inzi Control also manufactures battery modules.
