**Is there a place with battery cabinets in the United States**

## Overview

---

HBL offers a full range of customized battery cabinets to house your battery and ensure safe operation. Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

How many battery storage installations are there in the United States?

After showing a year-over-year increase of 80 percent in 2023, the capacity of battery storage installations in the U.S. was projected to reach almost 30 gigawatts by the end of 2024. That year, the number of operational and prospective battery storage projects grazed 1,000, with most of them located in California and Texas.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Where are battery storage projects located?

That year, the number of operational and prospective battery storage projects grazed 1,000, with most of them located in California and Texas. Moss Landing, a hybrid natural gas plant for electricity generation paired with the largest battery plant operative in the U.S. as of January 2025, was located in the golden state.

Should you store lithium-ion batteries on-site?

The dangers of improperly storing lithium-ion batteries have been well-

documented over the past decade. Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment.

What is americase battery pack enclosure?

Americase is a designer and manufacturer of advanced protective packaging for the transportation and storage of high value and hazardous goods.
