## Overview

---

Who makes solar panels?

Kyocera Solar has been producing solar panels since 1975. In 2021, Kyocera completed restoration work on a 13.7-MW floating solar park in Japan. Sharp Solar has been harnessing the power of the sun since 1959 (that's over 60 years!). Sharp Corporation just celebrated its 110th anniversary in 2022.

What makes Japan's solar panel manufacturing industry unique?

In conclusion, Japan's solar panel manufacturing industry is renowned for its innovation, quality, and commitment to sustainability. Leading companies like Primroot.com, Sharp, Kyocera, Mitsubishi Electric, and Panasonic produce high-performance solar products that meet stringent safety and efficiency standards.

Why should you buy solar panels from Japanese manufacturers?

There are still good reasons to purchase panels from Japanese solar panel manufacturers, however. The main reason is that these companies are still making some of the best solar panels on the market. One of the main reasons they are so good at making solar panels is that they have been doing it for a long time.

Are Japanese companies interested in solar manufacturing?

Japanese corporate giants with no previous experience in the solar industry have shown that they are willing to get involved in solar manufacturing. This provides an opportunity for these companies to put their efficient manufacturing processes to work expanding our capacity to create clean, renewable energy.

Which Japanese solar companies have a long history?

These are some of the Japanese solar companies with a long history: Mitsubishi Solar has been developing solar cells since 1974. The Mitsubishi

Electric Group itself has been around even longer and just celebrated its 100th anniversary in 2021. Kaneka started studying amorphous silicon solar technology in 1980.

Who is the largest solar developer in Japan?

Pacifico Energy has more than 1.5GW of operating projects and another 7GW in development. As a leader in the emerging Pacific renewable energy market, it is currently the largest solar developer in Japan. Vena Energy is a leading independent power producer (IPP) focused on renewable energy generation across the Asia-Pacific region.
