Kosovo Energy Storage Power Sales

Overview

The Government of Kosovo* is preparing a series of auctions for renewable energy and battery storage capacity. Minister of Economy Artane Rizvanolli revealed plans for auctioning 950 MW in the next two years, in line with the energy strategy until 2031. Does Kosovo have a battery storage plan?

According to its energy strategy, Kosovo also plans to hold two auctions for battery storage projects with a cumulative capacity of 170 MW. The minister expects that 45 MW/90 MWh and 125 MW/250 MWh battery storage procurement exercises will be launched this year in cooperation with US-based Millennium Challenge Corp. (MCC).

Why is electricity expensive in Kosovo?

Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level. Imports and exports have a negative impact for electrical energy price.

What is Kosovo's Energy Strategy?

The energy strategy foresees 170 MW in battery operating power. In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli.

How has Kosovo improved its energy sector?

Kosovo has prioritized the modernization and improvement of the country's energy sector generation capacity through investment in and development of its significant renewable energy sources. new wind and PV capacities to be developed until 2031 small-scale solar potential.

Why does Kosovo need a reliable electricity system?

In order to boost employment, increase growth, reduce poverty, and improve people's lives, Kosovo needs affordable and reliable energy. The country's current electricity system is outdated, inadequate and undependable – posing significant challenges to economic growth and development.

How much will Kosovo's new solar power plant cost?

In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli. The contracts will have a combined value of EUR 180 million, she added.
