Laos Solar System

Test certification

Overview

Why is solar power important in Laos?

Solar power has improved the livelihoods of local people. For people living off-grid in remote villages in Laos, solar energy offers a clean, sustainable way to bring electricity for all, and the promise to transform their lives.

Can China and Laos collaborate on a solar power project?

In what is the first large-scale solar photovoltaic project in Laos, CGN will collaborate with more than 70 Chinese and Laotian enterprises to establish a benchmark for electricity cooperation under the Lancang-Mekong Cooperation framework. The clean energy base is a vital power source supporting China-Laos power interconnection.

Is SolarSpace launching a 5GW high-efficiency solar cell plant in Laos?

SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar cell plant in Laos, giving momentum to its overseas production capacity. SolarSpace marked the start of the first phase of its 5 GW high-efficiency solar cell plant in Laos at a recent launch event in the Saysettha Development Zone.

How can solar energy help people living off-grid in Laos?

For people living off-grid in remote villages in Laos, solar energy offers a clean, sustainable way to bring electricity for all, and the promise to transform their lives. For people living off-grid in remote villages in Laos, solar energy offers a clean, sustainable way to bring electricity for all, and the promise to transform their lives.
