# **Malaysia Sodium Ion Energy Storage Project**

## Overview

---

Malaysia's Penang state has emerged as a testing ground for sodium-ion battery technology, offering a cost-effective alternative to traditional lithium-ion systems. Who is leading Malaysia's first sodium-sulfur battery energy storage system?

Home News Leader Energy and Plus Xnergy to Deploy Malaysia's First Sodium-Sulfur Battery Energy. Leader Energy Group Berhad, through its subsidiary Leader Solar Energy II Sdn Bhd (LSE II), has partnered with Plus Xnergy Services Sdn Bhd to install Malaysia's first sodium-sulfur (NaS) battery energy storage system (BESS).

Why is Malaysia launching a sodium-sulfur battery system in 2024?

By October 2024, Malaysia saw the deployment of its first sodium-sulfur (NaS) battery system at a large-scale solar farm in Kedah. This marked a significant step forward for the country's storage landscape, as the advanced NaS technology offers higher energy density and a longer discharge duration compared to conventional lithium-based systems.

Which company is launching the first sodium-sulfur (NaS) battery energy storage system?

PETALING JAYA: Leader Energy Group Bhd and Plus Xnergy Services Sdn Bhd have announced the upcoming deployment of the country's first sodium-sulfur (NaS) battery energy storage system (BESS).

Who is partnering with xnergy services Sdn Bhd?

KUALA LUMPUR: Leader Energy Group Bhd's subsidiary Leader Solar Energy II Sdn Bhd has partnered with Plus Xnergy Services Sdn Bhd to deploy the country's first sodium-sulfur (NaS) battery energy storage system (BESS).

Will xnergy support Malaysia's net zero ambitions?

Plus Xnergy Group CEO Ko Chuan Zhen said, "Pioneering this NaS BESS

system represents another milestone for us in supporting Malaysia's net zero ambitions. We are pleased with the foresight of Leader Energy in piloting this technology, which has tremendous benefits for our renewable energy industry.

Can NGK be used for long-duration energy storage in Southeast Asia?

Image: Leader Energy Malaysian manufacturing firm Leader Energy has tied up with BASF Stationary Energy Storage to develop long-duration energy storage projects in Southeast Asia using the sodium-sulfur battery technology of NGK.
