## Overview

---

In 2022 Moldova created , initially just for renewable power supplies, before Russia attacked Ukraine electricity system that resulted in electricity imports from Ukraine being suspended. provided Energocom with €300m to improve energy security. Energocom has become the central electricity supplier and public electricity trader of Moldova as well as a gas supplier.

Does Moldova have a power plant?

The country has a single, lone power plant, which is problematically located in the Russian-backed separatist region of Transnistria. This is a recipe for an energy disaster. Moldova's gas sector is also almost entirely controlled by a monopoly called Moldovagaz, which is 51% owned by Russia's gas giant Gazprom.

How has Moldova restructured its electricity distribution network?

As part of the reforms, Moldova restructured and partially privatized its electricity distribution network, including Premier Energy, a private company that controls 70 percent of the country's electric distribution grid.

Why did Moldova create energocom?

In 2022 Moldova created JSC Energocom, initially just for renewable power supplies, before Russia attacked Ukraine electricity system that resulted in electricity imports from Ukraine being suspended. EBRD provided Energocom with €300m to improve energy security.
