

## A-Core Container

# New Zealand PV container BESS

## Overview

---

Saft will engineer the 100 MW/200 MWh Huntly BESS as a complete turnkey solution based on 70 of its Intensium Shift+ lithium-ion battery containers combined with power conversion and control systems. It is planned to come online in the third quarter of 2026.

Saft will engineer the 100 MW/200 MWh Huntly BESS as a complete turnkey solution based on 70 of its Intensium Shift+ lithium-ion battery containers combined with power conversion and control systems. It is planned to come online in the third quarter of 2026.

Paris, 19 September 2024 – Saft, a subsidiary of TotalEnergies, has won a major contract to deliver a turnkey, utility-scale battery energy storage system (BESS) for Genesis Energy Limited, a listed New Zealand generation, wholesale, and retail energy company. The 100megawatt (MW) / 200.

Saft, a subsidiary of French energy giant TotalEnergies, will provide Genesis Energy in New Zealand with a 100MW/200MWh utility-scale battery energy storage system (BESS). Confirmed yesterday (19 September), the 2-hour duration BESS will be installed at Huntly Power Station on the country's North.

Construction of the Wellington, New Zealand-headquartered electricity gentailer Meridian Energy Ruakākā battery energy storage system (BESS) is now complete. The 100 MW / 200 MWh Ruakākā BESS, located in the Ruakākā Energy Park, 130 kilometres north of Auckland, has enough output to power around.

September 27, 2024: Saft, a subsidiary of French oil giant TotalEnergies, has won a 100MW/200MWh contract to deliver a turnkey, utility-scale BESS for Genesis Energy, a listed New Zealand generation, wholesale, and retail energy company. Saft will provide a turnkey solution based on 70 of its.

CentrePort is taking another step on its energy journey with an onsite battery energy storage system (BESS) which will improve resilience and enhance the potential for future emission reductions. BESS systems use large rechargeable batteries to store energy for later use, which can make renewable.

In recent years, it has become common for utility-scale solar projects in Australia to include a grid-scale battery energy storage system (BESS) to provide energy generated by the solar farm to the grid outside of the times when the sun is shining. Big batteries are currently booming in Australia.
