

A-Core Container

New energy battery cabinet converted to 60v

Overview

The latest innovation for the utility-scale energy storage market adopts a large battery cell capacity of 314Ah, integrates a string Power Conversion System (PCS) in the battery container, embeds Stem Cell Grid Tech, and features systematic liquid-cooled temperature control.

Discover AZE's advanced All-in-One Energy Storage Cabinet and BESS Cabinets - modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid.

Solvevity Power Solutions helps businesses become more sustainable by providing energy-efficient solutions such as EV Charging Stations, energy-efficient HVAC systems, Battery Storage Options, Energy Efficient NASA inspired products to reduce energy cost and renewable energy options like solar.

A special lithium battery protection module designed for lithium battery rental and replacement. In addition to the basic protection functions of lithium battery protection module, it also has a pre-discharge function, 485 communication (optional), GPS remote data transmission, GPS Power supply.

Built on the HAITAI battery swap platform, big data platform, and blockchain technology, we specialize in developing battery swap cabinet control systems, which include the PMS (Power Management System) for managing individual

charging slots and the CMS (Cabinet Management System) as the central.

AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system.
