# New energy storage companies in northwest Spain

## Overview

---

What are the top 10 energy storage manufacturers in Spain?

The article will explore top 10 energy storage manufacturers in Spain including e22 energy storage solutions, Iberdrola, Cegasa, HESSte, Uriel Renovables, Matrix Renewables, Gransolar Group, Grenergy Renovables, Landatu Solar, Power Electronics. You can also check the following top list in our website to know more information:.

What is energy storage in Spain?

It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage. The program supports hybrid projects, which combine storage with renewable energy, such as solar or wind farms.

How will Spain increase its energy storage capacity?

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems.

Why should Spain invest in energy storage?

Investing in energy storage helps Spain meet its climate goals. This includes achieving carbon neutrality by 2050. Storing renewable energy instead of wasting it helps the country rely less on fossil fuels. This also cuts down greenhouse gas emissions. Pumped hydro, thermal storage, and battery systems are effective technologies.

Which energy storage plants are being built in Malaga & Girona?

The 77.6 MW St Cerrillo energy storage plant and evacuation infrastructure, in the province of Malaga, is in prior consultation. The 50.9 MW Glauco Almacena

energy storage plant and evacuation infrastructure, in the province of Girona, is in prior consultation.

Which energy storage plants in Asturias have had their decisions issued?

The 65 MW Pb Navegantes 32 and the 65 MW Pb Navegantes 33 energy storage plants and evacuation infrastructure, in the principality of Asturias, are described as having had their decisions issued. The 77.6 MW St Cerrillo energy storage plant and evacuation infrastructure, in the province of Malaga, is in prior consultation.
