# North Korea 5G communication base station smart charging pile project

## Overview

---

How many 5G base stations does South Korea have?

In the report, South Korea ranked first among 29 countries, including non-OECD members such as China and the European Union, in “5G base station deployment.” The country recorded 593 5G base stations per 100,000 inhabitants, significantly surpassing Lithuania (328) and Finland (251).

Does SK Telecom use AI to improve 5G performance?

SK Telecom (SKT) has partnered with Samsung Electronics to use AI to improve the performance of its 5G base stations in order to upgrade its wireless network. Specifically, they will use AI-based 5G base station quality optimization technology (AI-RAN Parameter Recommender) to commercial 5G networks.

How does 5G work in South Korea?

South Korea’s main telecom firms developed their public 5G networks on the 3.5-gigahertz band, a mid-frequency band. At the same time, 5G can be enabled on the high-frequency bands supporting millimeter wave, the type touted at 5G’s inception that can provide more-extreme boosts in speed.

Is South Korea a bellwether for 5G?

South Korea is often viewed as a bellwether for the 5G business, largely because the country was first in widescale 5G deployment and its regulator collects detailed information about the adoption of the technology.

Does South Korea have a good digital infrastructure?

South Korea’s digital infrastructure is regarded as the world’s best, according to the Ministry of Science and ICT, citing findings from the OECD Digital Economy Outlook 2024. In the report, South Korea ranked first among 29 countries, including non-OECD members such as China and the European Union, in “5G base station deployment.”.

How much did South Korea pay for misleading 5G advertising?

In May, South Korea's Fair Trade Commission collectively fined the country's three carriers about \$24.8 million for allegedly using misleading advertising that exaggerated the speed of their 5G networks at their launch.
