

A-Core Container

North Macedonia 7GWh energy storage lithium battery project

Overview

Here are some key points:

- 1. Cost: Lithium-ion batteries for storage are averaging €450–€600 per kWh
- 2. Investments: The country is attracting investments in battery factories, with projects worth up to EUR 360 million underway
- 3. Hybrid Solutions: There are initiatives combining lithium-ion batteries with other technologies for effective energy storage
- 4. Energy Storage Projects: The North Macedonia Energy Storage Container Project is a significant development aimed at enhancing renewable energy integration
- 5. Local Production: A new factory for lithium-ion battery systems is being established, with an investment of €65 million
