Norway lithium energy storage power supply procurement

Overview

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage systems (BESS) to projects across Denmark, Sweden, Finland, and Norway through 2027.

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage systems (BESS) to projects across Denmark, Sweden, Finland, and Norway through 2027.

Chinese lithium-ion OEM Hithium and system integrator BOS Power have signed a supply agreement for 3GWh of BESS deployments in the Nordic region. The agreement will see Hithium supply BOS with battery energy storage system (BESS) technology for projects in Denmark, Sweden, Finland and Norway.

Most batteries being produced today will be used to store energy for wind farms, industrial activities and off-grid rural areas,” explains Nora Rosenberg Grobæk, former Head of Batteries at Invest in Norway, the official investment promotion agency of Norway. Whether for EVs or energy storage.

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage systems (BESS) to projects across Denmark, Sweden, Finland, and Norway through 2027.
