Prices of rooftop solar power systems in Western Europe

Overview

Average costs for solar photovoltaic (PV) installations typically range from €1,000 to €3,000 per installed kilowatt (kW), leading to an average installation cost of around €7,000 to €10,000 for a typical residential solar system. What is the rooftop solar PV comparison update?

The Rooftop Solar PV Comparison Update produced by CAN Europe and eco-union, with contributions from our members, is an updated version of the Rooftop Solar PV Comparison Report published by CAN Europe in May 2022.

Are European citizens and businesses choosing low-cost solar to control their energy bills?

The report shows major growth in the solar rooftop segment, indicating that Europe's citizens and businesses have opted for low-cost solar to control their energy bills. Clean, affordable and secure energy for Europe's citizens and businesses is at the core of the European Commission's energy policy.

Is rooftop solar a viable solution to energy crisis?

Sensitised for solar power as an effective tool to control energy bills and a continuous trend to electrify heat and transport will drive rooftop solar both in the residential and commercial segment in the long run, but at more sustainable levels than during the rush of the energy crises.

How will Europe's Solar EPC market grow?

The Europe's efforts in reducing the greenhouse gas emissions and shifting towards renewable energy sources are increasing the demand for solar energy investment. The adoption of hybrids solar systems, which integrate other renewable energy sources along solar PV, will fuel the Europe solar EPC market growth.

What is the 2025 Europe PV system pricing report?

The 2025 Europe PV system pricing report covers solar capex for 15 major

countries across residential, commercial and utility-scale segments. It includes detailed breakdowns for national average system costs for France, Germany, Italy, Spain and the UK across the three segments.

Why do solar energy costs vary across Europe?

Solar energy costs across Europe vary significantly based on multiple factors including location, system quality, and energy policies. 1.
