

## A-Core Container

# Professional BMS battery management system sales price

## Overview

---

In 2025, the average price of a BMS ranges from USD 30–50 for low-voltage consumer electronics to over USD 400 for high-voltage electric vehicle (EV) systems. What is the global battery management system (BMS) market size?

The global Battery Management System (BMS) Market is expected to grow from USD 7.8 billion in 2023 to USD 18.4 billion by 2028, at a CAGR of 18.7% from 2023 to 2028. A battery management system is an electronic system that monitors and manages the operation and functionality of a rechargeable battery such as lithium-ion.

How much does a battery management system cost?

Active BMS also enables low-voltage charging restart once cells recover to safe zones. With enhanced capabilities over passive BMS, they suit medium-large battery capacities. Average active BMS price range: \$500–\$2,000. Hybrid BMS – As the name implies, hybrid BMS combines elements of both passive and active systems.

How big is the battery management system market?

The Battery Management System Market is expected to reach USD 9.75 billion in 2025 and grow at a CAGR of 4.85% to reach USD 12.36 billion by 2030. Eberspaecher Vecture Inc., BMS Powersafe, Sensata Technologies, Inc., Texas Instruments Incorporated and Elithion Inc. are the major companies operating in this market.

What is a battery management system (BMS)?

A battery management system (BMS) is an electronic system that governs a rechargeable battery such as a battery pack or cell. This is done by supervising its state, preventing it from operating outside its safe operating area, reporting data, calculating secondary data, and controlling its environment.

How much does a hybrid battery management system cost?

With almost full capabilities at partial costs, hybrid BMS presents excellent middle-ground options for many lithium battery applications. Average hybrid BMS price range: \$800-\$1,500. Capabilities and pricing can vary widely for BMS. Here are 6 of the leading global manufacturers serving both consumer and industrial lithium battery markets:.

How much does a passive battery management system cost?

Key functions include overcharge protection, undervoltage protection, and balancing cells. Passive BMS offers adequate safety for smaller battery banks in low-budget projects. Average passive BMS price range: \$100-\$500.
