# Saint Lucia solar Power Generation System

## Overview

---

Construction work will include the development of 10 MW of solar power along with an energy storage system with two-hour lithium-ion batteries with a capacity of approximately 13 MW / 26 MWh, as well as connection to LUCELEC's 66 kV transmission grid.

Construction work will include the development of 10 MW of solar power along with an energy storage system with two-hour lithium-ion batteries with a capacity of approximately 13 MW / 26 MWh, as well as connection to LUCELEC's 66 kV transmission grid.

Electric utility company St Lucia Electricity Services is set to tender a 10 MW solar project with accompanying battery energy storage later this year. St Lucia Electricity Services (LUCELEC) is planning to tender a 10 MW solar project in Saint Lucia. According to a notice posted by the utility.

Saint Lucia is set to take a major leap in its renewable energy journey, planning to launch a tender in 2025 for a 10 MW solar project paired with a significant 13 MW of battery energy storage. This initiative is a cornerstone of the island's strategy to slash its reliance on volatile fossil fuel.

Electric utility company St Lucia Electricity Services is set to tender a 10 MW solar project with 13 MW battery energy storage later this year. St Lucia Electricity Services (LUCELEC) plans to tender a 10 MW solar plus storage project in St Lucia. According to an announcement released by the.

Saint Lucia is set to benefit from a multi-million dollar initiative aimed at enhancing energy efficiency and expanding the use of renewable energy. The World Bank's Board of Executive Directors has approved the Caribbean Efficient and Green Energy Buildings Project, a US\$131.87 million investment.

In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project—a 10 MW photovoltaic installation paired with a 26 MWh lithium-ion battery energy storage system (BESS). The project, set to be tendered later this.

Arlington, VA – Today, the U.S. Trade and Development Agency awarded a technical assistance grant to Saint Lucia’s National Utilities Regulatory Commission (NURC) that will advance the country’s renewable power generation infrastructure and energy sector resilience. USTDA’s assistance will help.
