# Saudi Arabia Grid Energy Storage Project

## Overview

---

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone supports Saudi Arabia's Vision 2030, which targets 50% renewable energy in the national mix by the end of.

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone supports Saudi Arabia's Vision 2030, which targets 50% renewable energy in the national mix by the end of.

BYD and Saudi Electricity Company will deliver a record 15.1GWh of storage, advancing Saudi Arabia's Vision 2030 and accelerating clean energy goals. Battery storage projects play a vital role in enhancing grid stability and efficiency, making them essential for modern energy systems. Battery.

Saudi Arabia is making history with the world's largest grid-scale battery energy storage project. BYD Energy Storage has signed a 12.5 GWh contract with the Saudi Electricity Company (SEC), bringing their total collaboration to 15.1 GWh. This big project will help Saudi Arabia reach its Vision.

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deploy a 12.5GWh grid-scale battery storage system - now the world's largest single project. Combined with an existing 2.6GWh collaboration, their total partnership reaches 15.1GWh. The project supports Saudi Arabia's.

The projects align with the country's Vision 2030 initiative, which aims for a 50% renewable energy mix by the end of the 2020s. The Project Kick-off Meeting. Credit: GlobeNewswire/BYD Energy Storage. BYD Energy Storage has signed contracts with the Saudi Electricity Company to deliver 12.5.

BYD & SEC launch world's largest grid-scale battery storage for Vision 2030 goals. Battery storage systems are becoming crucial for stabilizing electricity grids and supporting the transition to renewable energy. These technologies lower energy costs, boost the use of renewables, and reduce.

Updated August 29, 2025: Saudi Arabia is making advances in its BESS projects as it launches one of Middle East's largest BESS deployments, a 4GWh BESS project. The nation's battery storage drive comes as HiTHIUM is commissioned with a 4 GWh BESS project in a joint venture between the Saudi.
