Where will Bess projects come up in Saudi Arabia?

Unveiling the list of BESS projects, Saudi Electricity Company said these will come up in the following key locations across the country - Riyadh (500 MW/2,500 MWh); Qaisumah (500 MW/2,500 MWh); Dawadmi (500 MW/2,500 MWh); Al Jouf (500 MW/2,500 MWh) and Rabigh (500 MW/2,500 MWh).

How many Bess projects are being tendered by Saudi power procurement Company (SPPC)?

The Saudi Power Procurement Company (SPPC) is in the process of tendering four additional 500 MW/2000 MWh BESS projects. In January, SPPC released a list of 33 prequalified bidders for these projects. Participants include companies such as Masdar, ACWA Power, EDF, and TotalEnergies.

Is Saudi Arabia developing a large-scale battery storage project?

The project is among several large-scale battery storage initiatives being developed in Saudi Arabia. In an ongoing procurement, the Saudi Power Procurement Company (SPPC) is tendering four 500 MW / 2,000 MWh BESS projects.

Why is Saudi Arabia focusing on Bess?

Saudi Arabia's focus on BESS is not only a response to the country's energy needs but also a strategic move to position the kingdom as a leader in the global energy storage market.

Could Saudi Arabia set a standard for energy storage solutions?

Through these projects, Saudi Arabia could help to set the standard for future

energy storage solutions in the Middle East and beyond. The kingdom's move to invest heavily in energy storage is a response to both internal and external pressures to modernize and diversify its energy grid.

Which companies are prequalified for Bess projects?

Among the companies prequalified for the BESS projects are global leaders in energy storage and power generation, alongside regional firms with a strong track record in delivering infrastructure projects.
