What are the different types of power plugs in Morocco?

In Morocco, there are two main types of power plugs and outlets: Type C and Type E. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

What is the standard voltage in Morocco?

The standard voltage in Morocco is 220 V, and the frequency is 50Hz. Compared to 120V and 60Hz in the United States, you'll notice that Morocco's power voltage is higher than the U.S. but carries less frequency. The safest way to manage the differences is to look for a power adapter that converts both voltage and frequencies.

How are Morocco's power outlets different from the United States?

Morocco's power outlets are drastically different from those in the United

States. You'll have to plan to ensure your electronics are not only charged and usable but that they don't short-circuit in Morocco's power outlets.

What do Morocco electrical outlets look like?

When you are going on a trip to Morocco, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like?

In Morocco, types C and E are the official standards. Since type F plugs are identical to type E plugs, they can also be used with type E sockets.
