# Sierra Leone solar Energy Storage System

## Overview

---

A 51.2kWp ground-mounted solar system has been installed in Sierra Leone, providing clean and reliable electricity to an underserved community, and supporting healthcare and education sectors in the area. Does Sierra Leone have a solar project?

Sierra Leone launches the World Bank-backed RESPITE solar project, bringing clean energy to 28 underserved communities and boosting economic growth.

How will solar power help Sierra Leone achieve its energy goals?

Solar power, along with large-scale solar farms and hydroelectric projects, will be central to achieving this target. These efforts are part of Sierra Leone's broader strategy to diversify its energy mix and reduce its reliance on fossil fuels.

How has Sierra Leone improved electricity access?

Sierra Leone has taken a significant step toward improving electricity access with the launch of the Regional Emergency Solar Power Intervention Project (RESPITE).

Does Sierra Leone have a low energy access rate?

Sierra Leone currently has one of the lowest energy access rates globally, with only 36% of its population connected to the grid and a mere 6% in rural areas. The SOGREIA Initiative supports the government's aim to increase the share of renewable energy in the country's energy mix to 35% by 2030. "By 2027, Sierra Leone will be fully illuminated.

Why is Sierra Leone launching a solar mini-grid?

By harnessing the country's abundant solar energy, these mini-grids are expected to provide the consistent power needed to significantly enhance living standards and economic activity. At the launch event, President Julius Maada Bio underscored the project's importance for Sierra Leone's

development.

What is the response project in Sierra Leone?

It aims to address urgent electricity needs by providing reliable, renewable energy solutions crucial for the socio-economic development of these regions. In Sierra Leone, the RESPITE project will focus on installing solar mini-grids in 28 communities, directly benefiting thousands of households, businesses, and public facilities.
