Chinese battery manufacturer Gotion High-Tech has begun construction on a production facility in Šurany, Slovakia. The investment is part of a strategy announced in December 2024 to increase production capacity in Europe. According to the company, the 65-hectare plant will be the first large-scale.

The first phase of the plant is planned with a capacity of 20 GWh, with trial production scheduled for 2026 and full-scale production starting in 2027. Products will primarily be exported to the EU market, creating 1,300 new jobs in the Šurany region during the initial phase. Gotion High-tech (SHE:.

GIB represents joint effort of InoBat and Gotion High Tech in developing a battery giga-factory in Slovakia. GIB represents a unique example of strong partnership between fast-growing start-up with the outstanding experience in project development and knowledge of Slovakian context and the.

Bratislava, 20 th June 2024 – The Slovak government has signed an Investment Agreement (IA) with Gotion InoBat Batteries (GIB), a joint-venture between one of the top tier Chinese battery companies Gotion High-tech and the Slovak innovative battery company InoBat. GIB's giga factory deploys an.

We offer photovoltaic panels, photovoltaic inverters, battery storage and other components necessary for the construction and installation of solar energy systems. We have sufficient inventory for fast and efficient project execution for our customers. We offer you comprehensive services for the.

As Slovakia strides towards modernizing its energy infrastructure, Greenbat and Pixii have joined forces to pioneer the first battery storage system certified for primary frequency regulation (FCR) in the V4 countries. This collaboration marks a significant milestone in enhancing grid stability and.
