Solar Panel Water Pump Inverter Price

Overview

Which solar water pump inverter is available online?

The 5.5kW three-phase AC 220V solar pump inverter is now available online. This solar pumping inverter integrates advanced MPPT tracking for precise voltage detection and optimal performance. The solar water pumping system supports AC and DC input, with a DC voltage range of 300V~380V and a power factor >0.99 .

What is a solar pump inverter?

A solar pump inverter converts the DC power generated by solar panels into AC power suitable for driving a water pump. Easy to use and install. Affordable price 7.5 kW (10 hp) solar pump inverter for sale, AC output 17A at 3-phase, recommended DC MPPT range (350V, 750V), DC voltage (280V, 750V).

How much does a solar water pump cost?

A basic, but complete solar water pump kit, will cost around \$2,000. This baseline system will pump water from a few hundred feet deep at a few gallons power minute flow rate. Often solar pumps systems will replace the high costs of electric pumps and generators, high maintenance costs of windmills, and the inconveniences of hauling water.

How much power does a solar pump inverter have?

1.5kW solar pump inverter for sale, with AC 3.8A output current at 3-phase, 380V, DC voltage range (280V, 750V), and recommended DC MPPT range (350V, 750V). With IP20 protection class, the solar pump inverter works at (-10°C, 40°C). The solar pump inverter supports AC and DC input, the power factor is >0.99 , and the humidity is less than 95%RH.

Can a solar pump inverter damage your irrigation system?

Solar-powered water pumping systems are revolutionizing irrigation and water supply in remote areas. But choosing the wrong inverter can reduce efficiency

or even damage your system. This guide walks you through everything you need to know in 2025 to select the ideal solar pump inverter for reliable, cost-effective performance.

What is a 15 hp water pump solar inverter?

15hp water pump solar inverter with MPPT control, AC 25A output at 3-phase, rated power 11kW, and DC voltage range (280V, 750V). 15 hp solar pump inverter with RS485 communication and IP20 protection, supports AC and DC input, works at (-10°C, 40°C).
